PREPARING FOR SUCCESS- CAREERS

- All Year 11 students are entitled a careers meeting with our qualified careers advisor- we are working on the safest way to do this.

- The following three websites will help you in doing your own research in different careers that may be right for you, and have resources for you to develop your skills.

- If you know what career you would like to do, look at the entry requirements for that job. Do you need A-levels? A degree? What GCSE's do you need? This will help you make an informed decision for what path you take next year.

- If you need any more help, you can reach me on ild@beckfootthornton.org

- Best of luck!
The National Careers Service website is great to view an A to Z of different careers from different sectors. You can gain information of what skills are required for the job and how much the job will pay on average.

https://nationalcareers.service.gov.uk/
The Prospects website is also great at showing different jobs but it also has Skills assessments and a CV builder to help you create an effective CV.

https://www.prospects.ac.uk/
Future goals is a website dedicated to us in the Leeds City region and surrounding areas (Including us in Bradford). It highlights 6 growing job sectors and the jobs available in that sector.

If you’re unsure of what you’d like to get in to, there may be many jobs available in the future in the below sectors, do some research and see if one of them is suitable for you!
